Reflections:	I believe that while I still have much to learn in the special education field, I am capable of providing my students with a variety of forms of instruction and a productive learning environment. I feel that my students grew while under my teaching and observation and were able to perform to the best of their ability underneath my care.
Overall Rating:	Need Improvement
Reflections:	It was difficult for me at times to provide instruction to students who need it broken down in to simpler terms. I feel that I did well at this, but I still could have learned more strategies and practices to help me increase my pedagogical knowledge.
Overall Rating:	Proficient
Reflections:	I believe I act as a professional around my practicum teachers and administrators, even if the environment can challenge otherwise. I enjoy communicating with my practicum teachers and asked questions often to develop a better understanding of the school and the special education system in itself.
